VERSION 1: SFX: CAT MEOW, DOG BARK, PURRING, ANIMAL FOOTSTEPS

WOMAN: Do hear that?

MAN: Yeah! It sounds like dogs and cats are in here.

ANNCR: What your hearing is right! That is the sound of the pet you are missing in your home.
PetProvider is the best in providing cats and dogs to people of all incomes, geographical locations, housing lifestyles, and personalities.

MAN: (SKEPTICAL) That's what they all say!

WOMAN: (SKEPTICAL) Yeah! What makes you guys so different?

ANNCR: Pets from PetProvider are all given organic hypoallergenic shots before they go to a prospective owner. The shots make them completely non-allergenic.

WOMAN: (SNIFFLES, SNEEZES) Wow! That's perfect for me because I have such bad pet allergies.

MAN: (ANNOYED) But what a bout all the shedding? I don't have time to clean up all of that hair.

ANNCR: Because of the hypoallergenic shots, done by PetProvider, the old hair does not fall off but is recombined with the new hair growing in the follicle, and therefore never falls out.

MAN: That's Great! Do they not use the bathroom either?

ANNCR: (LAUGHING) Of course not! Now that would be crazy!

(UNDER BREATH) even though we do have a prototype for that.
